The change order is a result of relocating the matting. The location did not need to be changed substantially, but needed to be reset to the way it was originally intended. Woodbury informed the managers that a one year warranty exists with this project and is verified by the contractor’s bond. The change order will be cost shared with the Department of Transportation. A Motion was made by Manager Sonstelie accepting the change order, Seconded by Manager Brekke, Carried. A Motion was made by Manager Vig to pay the final request of $11,059, Seconded by Manager Brekke, Carried.

Ditch #122: Downs asked the managers why the Unanimous Resolution in January 2005 was not recognized for Ditch #122. The minutes were reviewed and read as follows: “Motion was made by Manager Sonstelie to establish this as a watershed project by unanimous resolution of the board, Seconded by Manager Vig. Manager Christian asked to recuse himself as he has property in the project. Those voting for the motion, Hanson, Vig, Sonstelie, and those voting against the motion, Brekke, The unanimous resolution did not pass. Manager Brekke would like to table this action until the April meeting at which time everyone can go out and visit the site and those involved in promoting the project can attend the meeting and present their views. Motion was made by Manager Brekke to table this project until the April meeting at which time a site visit will be done and all those involved will be given an opportunity to be heard. Seconded by Manager Vig, Carried.” It was explained that the Unanimous Resolution was not passed and therefore this was not made into a project.

Downs also asked about a survey from the west side and wondered why that was not done but the east side was. Woodbury disagreed and stated that both sides were surveyed.
Dan’s computer: Wilkens monitor has broken and he is in need of another monitor. The computer he is currently using is extremely outdated and it is recommended that Swenby obtain estimates for a new computer and monitor rather than purchasing a monitor now and a computer that will not match in the future.
