West Polk SWCD: The SWCD discussed the grant for $475,000 that was received from the Clean Water Legacy Fund, which is a little over half of what was requested to do the entire project. This project was rated #3 in the state. The time frame for project completion is three years for the first phase. Planning meetings are in the process to aid in the design. Manager Hanson volunteered to be on a committee to attend the meetings to plan for the design.

The SHRWD is responsible for 25% of the cost of the project.

Hearing minutes and presentations show that the appeal period was definitely stated at the hearing.
